SUBJECT INDEX VOLUME XXI

(ab.) = Abstracts; (CPC) = Clinico-pathologic Conference; (E.) = Editorial

- Acidosis, diabetic, 339
 ACTH and pituitary failure, 300
 Addison's disease and idiopathic hypoparathyroidism, 634
 Adenoviruses and respiratory disease, 161
 Adrenal
 cortical deficiency, replacement therapy with cortisone, 358
 cortical secretory activity, spontaneous diurnal variation in (E.), 321
 Adrenocortical function, 380
 Alcoholism and cirrhosis of liver (ab.), 129
 Alveolar cell carcinoma and chronic pulmonary parenchymal inflammation, 879
 Ammonia metabolism and cirrhosis (ab.), 132
 Ammonium metabolism (ab.), 130
 Amyloidosis
 and hypertension, 227
 and renal insufficiency, 227
 Androgens
 metabolism of, estrogens and corticoids, 679
 physiologic effects of, and estrogens in man, 671
 Anemia, autoimmune hemolytic, dissemination of lupus erythematosus in, 560
 Aneurysms, dissecting, of aorta (CPC), 626
 Anticoagulant therapy of acute myocardial infarction, 555
 Aortic insufficiency, severe, 200
 Arginine, effect of, on blood ammonia, 832
 Arsenic intoxication, acute (CPC), 282
 Arteries, major pulmonary, chronic thrombosis of, 312
 Arthritis
 acute gouty, phenylbutazone in treatment of, 232
 and cholesterosis (ab.), 136
 Arthritis
 rheumatoid, hemagglutination test for, 897
 rheumatoid, latex fixation test for, 888
 rheumatoid, results with latex fixation test, 893
 rheumatoid, serologic diagnosis of, 888
 Ascites and portal hypertension, 16
 Autopsy room as a hall of learning (E.), 485
 A-V conduction, disturbances in, and potassium chloride, 521
- B**
 Bacteremia, bronchopneumonia, empyema and pneumothorax, treated with chloromphenicol, 974
 BAL in therapy of Wilson's disease (ab.), 134
 Biopsy, needle, for diagnosis of malignant lesions of liver (ab.), 135
 Blood ammonia, effect of arginine on, 832
 Bronchopneumonia, empyema, pneumothorax and bacteremia, treated with chloramphenicol, 974
- C**
 Calcium metabolism in malignancy, 714
 Cancer
 of breast, extirpative endocrine therapy for, 721
 hormonal modification in treatment of disseminated, 688
 prostatic, hormone therapy in, 697
 Carbohydrate metabolism (ab.), 128
 Carcinoid syndrome, report of four new cases of, 867
 Carcinoids of gastrointestinal tract, a study of 356, 867
 Carcinolytic agents in tissue culture, 739
 Carcinoma
 alveolar cell, and pulmonary parenchymal inflammation, 879
 of colon (CPC), 442
 Cardiopulmonary failure associated with obesity, 819
 Central nervous system, disease of, and jaundice (ab.), 135
 Cerebral metabolism in hepatic insufficiency, 843
 Chemotherapy of psychiatric states (E.), 825
 Chest pain, acute, and myasthenia gravis (CPC), 626
 Chlortetracycline and methionine toxicity (ab.), 131
 Cholesterosis and cirrhosis of liver (ab.), 136
 Cirrhosis
 and ammonia metabolism (ab.), 132
 biliary, serum transaminase in (ab.), 136
 juvenile, multiple pulmonary arteriovenous fistulas in, 450
 mitochondrial phospholipids in (ab.), 136
 of liver and alcoholism (ab.), 129
 of liver and cholesterosis (ab.), 136
 Clinic on psychosomatic problems (Massachusetts General Hospital)
 Long-term psychotherapy in a patient with epigastric pain, 275
 Clinico-pathologic conferences (Washington Univ.)
 acute gastroenteritis, 282
 chills, fever, dyspnea and cyanosis, 962
 hepatomegaly, splenomegaly and purpura, 442
 myasthenia gravis with acute chest pain, 626
 secondary hyperparathyroidism, 117
 Coma, hepatic, 306
 Combined staff clinic (Columbia Univ.)
 mechanisms of edema formation and principles of management, 423
 Conference on therapy (Cornell Univ.)
 treatment of diseases of eye seen in general practice, 618
 Copper deposition in liver in hepatolenticular degeneration (ab.), 132
 Corticoids, metabolism of androgens, estrogens and, 679
 Cortisone and postcardiotomy syndrome, 57
 Coxsackie viruses, and "virus-like" diseases, 175

Subject Index

Cyanosis, chills, fever, dyspnea and (CPC), 962
Cystic fibrosis of pancreas, 406

DDiabetes, stable and brittle, 344
Diabetic acidosis, 339
Diarrheal disease, viral (E.), 157
Digitoxin, effects of, on twelve lead electrocardiogram, 237
Dubin-Johnson syndrome in elderly men (ab.), 133
Dubin-Sprinz disease and non-hemolytic jaundice, 292
Dyschondroplasia and normal parathyroid function, 649
Dyspnea and cyanosis (CPC), 962

EEctopic rhythms, beats and disturbances in A-V conduction, effects of potassium chloride on, 521
Edema formation, mechanisms of and management, 423
Editorials
 autopsy room as a hall of learning, 485
 case for viral diarrheal disease, 157
 foreword to symposium on hormones and cancer therapy, 657
 physiologic and pharmacologic basis for chemotherapy of psychiatric states, 825
 some clinical implications of spontaneous diurnal variation in adrenal cortical secretory activity, 321
 ten years of "Green Journal," 1
Electrocardiogram, twelve lead, and digitoxin, 237
Empyema, pneumothorax, bacteremia and bronchopneumonia, treated with chloramphenicol, 974
Encephalopathy, chronic portal-systemic (ab.), 133
Endocarditis, gonococci, successful treatment of with erythromycin, 473
Endocrine aspects of experimental neoplasia, 659
Endocrine therapy, extirpative, for advanced cancer of breast, 721
Epigastric pain, psychotherapy for, 275
Esophagus, displacement of, 551
Estrogens
 and androgens in man, physiologic effects of, 671
 androgens and corticoids, metabolism of, 679
Eye, treatment of diseases of, 618

FFibrosis, cystic, of pancreas, 406
Fistulas, multiple pulmonary arteriovenous, in juvenile cirrhosis, 450
Folic acid deficiency, aggravation of, by vitamin B₁₂, 461

GGastroenteritis, acute (CPC), 282
Gastrointestinal tract, a study of 356 carcinoids of, 867
Glycine-N¹⁵
 in primary and secondary polycythemia, 901
 biosynthesis of uric acid from, 901
Gonococcal endocarditis, successful treatment of, with erythromycin, 473

HHamman-Rich syndrome (CPC), 962
Heart disease
 cyanotic congenital, with left ventricular hypertrophy, 481
 rheumatic, postcardiotomy syndrome in, 57
Hemagglutination test for rheumatoid arthritis, 897
Hemochromatosis and hemosiderosis, 857
Hemolytic anemia, autoimmune, dissemination of lupus erythematosus in, 560
Hemosiderosis and hemochromatosis, 857
Hepatic and renal dysfunction in trichinosis, 567
Hepatic coma, 306
Hepatic insufficiency
 and thiotic acid (ab.), 131
 cerebral metabolism in, 843
Hepatitis
 infectious (ab.), 135
 infectious mononucleosis, 26
Hepatolenticular degeneration, copper deposition in (ab.), 132
Hepatomegaly (CPC), 442
Hepatosi, "lipochrome," and non-hemolytic jaundice, 292
Histoplasma capsulatum and pneumonia, 184
Hodgkin's disease, serum transaminase in (ab.), 136
Hormone therapy
 effects of, on calcium metabolism in malignancy, 714
 in prostatic cancer, 697
Hormones and cancer therapy, foreword to symposium, 657
Hypercalcemia in malignant disease, 750
Hypercholesterolemia and essential familial xanthomatosis, 34
Hyperparathyroidism, 583
Hypertension
 portal, and ascites, 16
 renal insufficiency and, with amyloidosis, 227
Hypertrophy, left ventricular, with cyanotic congenital heart disease, 481
Hypoglycemia, tumors associated with, 944
Hypoparathyroidism, idiopathic, and Addison's disease, 634
Hypophysectomy in treatment of malignant tumors, 728
Hypoventilation, alveolar, associated with obesity, 811

IInfectious mononucleosis, 990
 and ox cell hemolysis, 193
 hepatitis, 26

Insulin
 humoral, antagonism associated with diabetic acidosis, 339
I-131 metabolism in man, 324
I-131 plasma-finding, distribution and degradation, 324
I-131 rose bengal uptake and excretion test for liver function (ab.), 134

Subject Index

Jaundice

- constitutional non-hemolytic, with hypochrome hepatosis, 292
- obstructive, serum transaminase in (ab.), 136
- with disease of central nervous system (ab.), 135

Laennec's cirrhosis, serum transaminase in (ab.), 136

"Lipochrome" hepatosis and non-hemolytic jaundice, 292

Liver

- chronic infiltrative disease of, serum alkaline phosphatase in, 850
- cirrhosis of, and cholesterosis (ab.), 136
- copper deposition in (ab.), 132
- diagnosis of malignant lesions of (ab.), 135
- disease, chronic, 3
- disease, methionine toxicity in (ab.), 131
- disease, protein metabolism in (ab.), 129
- disease, serum transaminase in (ab.), 136
- function, radioactive I-131 rose bengal uptake and excretion test for (ab.), 134

Lung, radiation effect on, 211

Lupus erythematosus, exacerbation of, following splenectomy, 560

Manson's schistosomiasis, acute, 918

Methionine toxicity in liver disease (ab.), 131

Mitral stenosis and displacement of esophagus, 551

Mononucleosis, infectious, hepatitis, 26

Myasthenia gravis with acute chest pain (CPC), 626

Myocardial

- infarction, acute, anticoagulant therapy of, 555
- rupture and anticoagulant therapy, 555

Neoplasia, endocrine aspects of experimental, 659

Nephrotic syndrome and renal vein thrombosis, 496

Obesity

- associated with alveolar hypoventilation, 811
- associated with cardiopulmonary failure, 819

Ox cell hemolysins in infectious mononucleosis, 193

Pancreas

- carcinoma of, 760
- cystic fibrosis of, 406

Pancreatitis

- acute, 246
- chronic, 596

Penicillamine and Wilson's disease, 487

Phenylbutazone and acute gouty arthritis, 232

Phospholipids, mitochondrial, in cirrhosis (ab.), 136

Pituitary failure, ACTH and, 300

Pneumonia and histoplasma capsulatum, 184

Pneumothorax, bacteremia, bronchopneumonia and empyema, treated with chloramphenicol, 974

Polycythemia, primary and secondary, biosynthesis of uric acid from glycine-N¹⁵, 901

Portacaval shunts

- in patients with cirrhosis (ab.), 132
- neurologic changes in, 306

Postcardiotomy syndrome in rheumatic heart disease, 57

Potassium chloride, effect of, on ectopic beats and disturbances in A-V conduction, 521

Protein metabolism in liver disease (ab.), 129

Protein, serum analysis of, distribution by electrophoresis, 387

Pseudohypoparathyroidism, 644

Pseudopseudohypoparathyroidism, 649

Psychotherapy and epigastric pain, 275

Pulmonary

- arteries, major, chronic thrombosis of, 312
- fibrosis, acute interstitial (Hamman-Rich syndrome) (CPC), 626, 962
- insufficiency due to radiation, 211
- insufficiency, fatal, 211
- multiple, arteriovenous fistulas in juvenile cirrhosis, 450

parenchymal inflammation and alveolar cell carcinoma, 879

Purpura (CPC), 442

- thrombotic thrombocytopenic with positive Coombs' reaction, 468

QRS complex prolongation, 534

Radiation effect on lung, 211

Radioactive I-131 rose bengal uptake and excretion test for liver function (ab.), 134

Renal

- and hepatic dysfunction in trichinosis, 567
- failure, acute, in pregnancy, 781
- insufficiency and hypertension with amyloidosis, 227
- lesions and acute renal failure in pregnancy, 781
- vein thrombosis and nephrotic syndrome, 496

Respiratory disease caused by adenoviruses, 161

Rheumatic

- heart disease, postcardiotomy syndrome in, 57
- tricuspid stenosis, 47

Rheumatoid arthritis

- hemagglutination test for, 897
- latex fixation test for, 888
- results in, with latex fixation test, 893
- serologic diagnosis of, 888

Rheumatoid cholesterosis and cirrhosis (ab.), 136

Salmonella choleraesuis sepsis, 974

Schistosomiasis, Manson's, acute, 918

Seminar on diseases of pancreas

- acute pancreatitis, 246

Subject Index

- Seminar on diseases of pancreas
 carcinoma of pancreas, 760
 chronic pancreatitis, 596
 cystic fibrosis, of pancreas, 406
 exocrine pancreatic secretion; effects of pancreatic disease, 98
 tumors associated with hypoglycemia—pancreatic and extrapancreatic, 944
- Serum alkaline phosphatase in chronic infiltrative disease of liver, 850
- Serum transaminase in liver disease (ab.), 136
- Splenectomy
 in thrombocytopenic purpura and autoimmune hemolytic anemia, 560
 lupus erythematosus following, 560
- Splenomegaly (CPC), 442
- Stenosis
 mitral, and displacement of esophagus, 551
 rheumatic tricuspid, 47
- Symposium on hormones and cancer therapy
 abnormalities in calcium metabolism in malignancy; effects of hormone therapy, 714
 endocrine aspects of experimental neoplasia, 659
 extirpative endocrine therapy for advanced cancer of breast, 721
 foreword, 657
 hormonal modification in the treatment of disseminated cancer of breast, 688
 hormone therapy in prostatic cancer, 697
 hypophysectomy in treatment of malignant tumors, 728
 metabolism of androgens, estrogens and corticoids, 679
 physiologic effects of androgens and estrogens in man, 671
- Thiolic acid and hepatic insufficiency (ab.), 131
- Thrombocytopenic purpura
 idiopathic, dissemination of lupus erythematosus in, 560
- Thrombocytopenic purpura
 secondary to malignancy (CPC), 442
- Thrombosis
 chronic, of major pulmonary arteries, 312
 renal vein, and nephrotic syndrome, 496
- Thrombotic thrombocytopenic purpura, 468
- Tietze's syndrome, 982
- Tissue culture, cytotoxic action of carcinolytic agents in, 739
- Toxicity, methionine, in liver disease (ab.), 131
- Transaminase, serum, in liver disease (ab.), 136
- Trichinosis
 changes in liver and kidneys in, 567
 hepatic and renal dysfunction in, 567
- Tumors
 associated with hypoglycemia, 944
 malignant, hypophysectomy in treatment of, 728
- Uric acid from glycine- N^{15} in primary and secondary polycythemia, 901
- Vein, portal, chronic occlusion of extrahepatic portion of, 16
- Vena cava, superior, draining into left atrium, 481
- Ventricular conduction defects and QRS complex prolongation, 534
- Viruses, Cocksackie, and "virus-like" diseases, 175
- Vitamin B_{12} , aggravation of manifestations of folic acid deficiency, 461
- Wilson's disease
 and penicillamine, 487
 BAL in treatment of (ab.), 134
- Xanthomatosis and hypercholesterolemia, essential familial, 34
